OPPORTUNITIES

5° CEREMONY OF GOLD

how to participate

...as a normal Participant or
...as a Supporter

We have several spaces to share as support before and/or during the ceremony to prepare and maintain the spaces and accompany the construction project of the temple of the feminine (Women's Titua) that we are building at FOWE. This allows you to participate for a special contribution and learn from ancestral architecture.

OTHER CURRENT PROJECTS

FOWE - TITUA HOUSE OF THE WOMEN

The temple of the sacred feminine

Based on the wisdom of the caves, Titua is a space to look inward, finding the path of self-government and recognition in connection with the sacred feminine. At FOWE the temple of the masculine is already built and for this gold ceremony the goal that we have set for ourselves and it is fundamental, will be the construction of the space for the sacred feminine that allows us to balance and harmonize the energies so we can elevate this prayer through the offering of gold throughout the planet. We are looking for people strengthening this prayer with donations and/or their physical presence. Visit this link: www.wetamuiscafowe.com
